

Antibody Quality Control of non-phospho antibodies:

Name of Antibody: PINK (104-127 MOUSE)

Sheep Number: S889C

Bleed Number: 1st bleed, 2nd bleed, 3rd bleed - immunoblotting
2nd bleed - Immunoprecipitation

Date Purified: 18.07.10

Immuno Blotting:

Does not recognise recombinant or endogenous PINK1 in HEK 293 cell line and in mouse embryonic fibroblasts

Concentration used: 1 ug/ml

Immunoprecipitation:

Does not immunoprecipitate both recombinant or endogenous PINK1 from HEK 293 cell lines

Amount used:

For immunoprecipitation of recombinant protein, 5 ug of antibody per 1 mg of cellular extract was used

For immunoprecipitation of endogenous protein 5 ug of antibody per 10 mg of cellular extract was used
